MAKING OUR ENVIRONMENT CLEANER

25<sup>th</sup> October 2016

## NOTICE

" Transworld Garnet India Private Limited " ( TGI ) was Established in the year 1996 by " Western Garnet " in Tuticorin , Tamilnadu , India as a Canadian Owned Subsidiary Company with Mining Locations Situated at K. Uvari Village, Radhapuram Taluk, Tirunelveli.

TGI Designed and Manufactured "Bengal Bay Garnet " in the year 1996. This was Marketed by Western Garnet all over the world. Over the Past 20 years, we, TGI have been upgrading the Products Specification and maintaining the Quality Standard of " Bengal Bay Garnet " to match with the changes in the industry.

In the Mean Time " Western Garnet " was Renamed as " WGI Heavy Minerals " and in the year 2003, TGI expanded into the State of Andhra Pradesh at Srikakulam & Vizag , India for Producing Garnet.

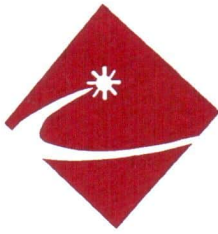

In the Year 2008, WGI Heavy Minerals Divested its shares in Transworld Garnet India Pvt. Ltd to Indian Investors making it a Wholly Owned Indian company.

After Selling TGI, WGI had an Agreement with TGI for purchasing the garnet produced in TGI. Since becoming a 100% Wholly Owned Indian company TGI has started with the Modernisation Phase to Increase Capacity and Quality.

In the Year 2012 WGI Heavy Minerals was purchased by OPTA Minerals. Opta Minerals signed agreement to purchase Garnet from TGI and Market it under Bengal Bay Garnet, the Brand that they bought from WGI.

For the Last Couple of Years OPTA Minerals was not able to meet their Contractual Commitments with TGI. So after giving Proper " Notice " to OPTA Minerals well in Advance the Contract was Terminated.
